UPDATE - Notice of Curbside Leaf Waste Pickup

City of Horicon curbside leaf pickup operations will continue past the program end date posted earlier (11/22/2019). Due to complications of early snow and freezing conditions, the City removal operations were initially delayed several days until warmer condition allowed these operations to resume. It has also been observed routinely not all the leaf materials had been placed at curb by Residents due to the same type of complications. Therefore, continued City pickup efforts are now being schedule for continued removal of these leaf materials before more adverse winter conditions would resume. **THE CITY OF HORICON INTENDS TO REMOVE LEAVES FROM CURBSIDES INTO WEEK OF NOVEMBER 25th.**

It is estimated seasonal conditions may not allow for leaf waste removals past a November 29, 2019 at this time. Resident leaf wastes thereafter must be hauled to the DPW site by the Resident after this extended program end date. There still is no spring leaf pickup service planned for this next year. Please feel free to contact the City of Horicon Public Works Department {(920) 485-3540} if special access or any other special provisions will be requested for this work performance.
